#### **DIRECTORS' REPORT**

#### FOR THE YEAR ENDED 31st DECEMBER 2019

The directors present their report and the audited financial statements of Gap Luqa Limited for the year ended 31st December 2019.

#### **Principal Activities**

The statement of comprehensive income for the year is set out on page 7.

The principal activity of the company, which is unchanged since last year, is the acquire property held for development and resale.

#### Review of business

By the end of the financial year under review, all the units of Lija have been either contracted or committed by way of a signed promise of sale agreement.

The Luga development

The Luqa development consists of 21 blocks. By the end of the year, the first 9 blocks were fully complete. Construction works had started on the next 6 blocks, whereas excavation works were complete regarding the remaining 6 blocks.

It is envisaged that construction shall be fully completed by latest Q2 2021 whilst the project will be completed in its entirely by Q4 2021.

At the end of the year, out of the 143 units from the first 12 blocks that were placed on the market, 59 units have been sold (contracted) and a further 61 units were subject to a Preliminary Agreement.

This means that 85% of the residential units available on the market were committed, out of which 42% have been contracted as at the end of the year.

### Results and dividends

The results for the year are shown in the statement of comprehensive income on page 7.

The Directors do not recommend the payment of a final dividend.

### **Directors**

The Directors of the company as at 31st December 2019 who held office throughout the year were:-

George Muscat Paul Attard Adrian Muscat

In accordance with the company's memorandum and articles of association all the Directors remain in office.

Page 2.

## **Directors' report - continued**

### **Auditor**

The auditor of the company, EFS Audit Limited will not be seeking reappointment. A resolution to appoint another of the company will be proposed at the forthcoming annual general meeting.

Approved by the Board of Directors and signed on its behalf by:

George Muscat

#### STATEMENT OF THE DIRECTORS' RESPONSIBILITIES

#### Statement of the Directors' Responsibilities

The directors are required by the Maltese Companies Act 1995 to prepare financial statements which give a true and fair view of the state of affairs of the company at the end of each financial period and of its income statement for that period. In preparing the financial statements, the directors are required to:-

- ensure that the financial statements have been drawn up in accordance with the International Financial Reporting Standards as adopted by the EU;
- make judgments and estimates that are reasonable and prudent;
- ensure that applicable accounting standards have been followed;
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Maltese Companies Act 1995. They are also responsible for ensuring that an appropriate system of internal control is in operation to provide them with reasonable assurance that the assets of the company are properly safeguarded and that fraud and other irregularities will be prevented or detected.

Approved by the Board of Directors and signed on its behalf by:

Pirector

Date: 19 June 2020

### Independent auditor's report

To the Shareholders of Gap Luga Limited.

Report on the Audit of the Financial Statements for the year ended 31st December 2019.

#### Opinion

I have audited the financial statements of Qawra Investments Limited, set out on pages 7 to 29 which comprise the statement of financial position as at 31st December 2019 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of Qawra Investments Limited as at 31st December 2019, and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and have been properly prepared in accordance with the requirements of the Companies Act (Cap. 386).

### **Basis for Opinion**

I conducted my audit in accordance with International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in accordance with the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap.281) in Malta, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

To the best of my knowledge and belief I have not provided any of the prohibited services as set out in the Accountancy Profession Act.

#### Information other than the Financial Statements and Auditor's Report thereon

The directors are responsible for the other information. The other information comprises the directors' report and the statement of the Directors' Responsibilities.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

With respect to the Directors' report, I also considered whether the Director's report includes the disclosure requirements of Article 177 of the Companies Act (Cap. 386).

In accordance with the requirements of sub-article 179(3) of the Companies Act (Cap. 386) in relation to the Director's Report, in my opinion, based on the work undertaken in the course of the audit:

The information given in the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and

The Directors' Report has been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, I have not identified any material misstatements in the Directors' report.

Page 5.

### Independent auditor's report

To the Shareholders of Gap Luqa Limited.

#### Responsibilities of the Directors

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs as adopted by the EU, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design
  and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
  provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for
  one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
  override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate
  in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal
  control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtined up to the date of my auditor's report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern and future events or conditions may cause the company to cease to continue as a going concern. In particular, it is difficult to evaluate all of the potential implications that COVID-19 will have on the company's trade, customers and suppliers, and the disruption to its business and overall economy.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities
  within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction,
  supervision and performance of the group audit. I remain solely responsible for my audit opinion.

Page 6.

## Independent auditor's report

To the Shareholders of Gap Luga Limited.

### Report on Other Legal and Regulatory Requirements

I also read other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. My responsibilities do not extend to any other information.

I am also responsible under the Companies Act (Cap. 386), I have responsibilities to report to you if, in my opinion:

- Adequate accounting records have not been kept, or that returns adequate for my audit have not been received from branches visited by me.
- The financial statements are not in agreement with the accounting records and returns.
- I have not received all the information and explanations I require for my audit.
- The information given in the Report of the Directors is not consistent with the financial statements.

I have nothing to report to you in respect of these responsibilities.

### **Appointment**

Mr Emanuel P. Fenech is the only shareholder and director of EFS Audit Limited, the current Company's auditor. EFS Audit Limited was appointed as auditor on the 1st January 2020 as a continuation of the same auditor operating under the name of a company. Mr Emanuel P. Fenech was first appointed as auditor of the Company on the 1st June 2016. His appointment was renewed annually by shareholder resoluton representing a total period of uninterrupted engagement period of 4 years.

This copy of the audit report has been signed by Emanuel P. Fenech (Partner) for and on behalf of

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

## 1 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

#### 1.1 Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU) with the requirements of the Maltese Companies Act, 1995. The financial statements are prepared under the historical cost convention, except as disclosed in the accounting policies below.

#### COVID-19 Pandemic

Following the developments, after the balance sheet date, of events pertaining to the COVID-19 pandemic, which is deemed to be a non-adjustable subsequent event, the Company prepared cash flow projections which factor for possible strain on the property market to assess the impact that the pandemic may have on the profitability, liquidity and going concern of the Group. The financial results and financial position of the company reported in these financial statements for the year ended 31 December 2019 have not been impacted by these events.

However the COVID-19 pandemic has caused disruption to businesses and economic activity which has also been reflected in volatility in the property market. The Directors consider that it is premature to forecast the impact of the pandemic on the financial and operational performance of the Company itself, more so since developments continue to unfold daily. Whilst the Directors believe that the pandemic will affect sales of property during 2020, they are confident that the Company has in place robust financial fundamentals and proper resources to enable it to meet the challenges that the pandemic may present.

Based on the outcome of, the Directors and senior management consider the going concern assumption in the preparation of the financial statements as appropriate as at the date of authorisation and believe that no material uncertainty that may cast significant doubt about the company's and the group's ability to continue as a going concern exists as at that date.

### Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRSs requires the use of certain accounting estimates. It also requires directors to exercise their judgements in the process of applying the company's accounting policies. Estimates and judgements are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

In the opinion of the directors, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult, subjective or complex to a degree which would warrant their description as critical in terms of the requirements of IAS 1.

Standards, interpretations and amendments to published standards effective in 2019

The company has not adopted any new standards or amendments that have a significant impact on the company's results or financial position. The following standard became effective for annual periods beginning on or after 1 January 2019:

Page 12.

## NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

## 1 Summary of significant accounting policies

### 1.1 Basis of preparation - continued

Standards, interpretations and amendments to published standards effective in 2019 (continued)

IFRS 16 - Leases

IFRS 16 'Leases' replaces IAS 17 'Leases' along with three Interpretations (IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC 15 'Operating Leases-Incentives' and SIC 27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease').

The new Standard requires lessees to recognise a right-of-use asset and related lease liability in operating lease agreements except for those identified as low-value or having a remaining lease term of less than 12 months from the date of initial application. After considering the nature of the company's business activities, it was concluded that IFRS 16 had no impact on the company's results and financial position.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the company

At the date of authorisation of these financial statements, certain new standards, and amendments to existing standards have been published by the IASB that are not yet effective, and have not been adopted early by the company.

Management anticipates that all relevant pronouncements will be adopted in the company's accounting policies for the first period beginning after the effective date of the pronouncement. The company does not expect that new standards, interpretations and amendments will have a material impact on the company's financial statements.

#### Going concern

The company's principal activity is the development of residential immovable property for resale. The company's financial results are dependant on timely completion of the property development projects and on the proceeds generated from the sale of immovable properties.

In these financial statements the directors of the Company have referred to cash flow forecasts of the company for periods after 1st January 2020. The cash flow forecast assumes that the company will complete the residential properties in a timely manner and generate the projected revenue from the sales of these properties. The directors have assessed the impact resulting from the Covid-19 pandemic on such projections.

Based on the outcome of cash flow projections which factor for possible strain on the property market, the Directors consider the going concern assumption in the preparation of the financial statements as appropriate. The financial statements, however, do not include any adjustments in the event that the forecast and assumptions as set out above do not materialise as planned.

Page 13.

## NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 1 Summary of significant accounting policies

### 1.2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments has been identified as the board of directors, responsible for making strategic decisions. The board of directors considers the Company to be made up of one segment, that is raising financial resources from capital markets to finance the capital projects of the Company. All the Company's revenue and expenses are generated in Malta and revenue is mainly earned from the development of immovable property.

#### 1.3 Financial assets

#### 1.3.1 Classification

The Company classifies it's financial assets as measured at amortised cost, as designated at fair value through other comprehensive income (FVOCI) and as designated at fair value through profit or loss (FVTPL). The classification is based on the business model in which a financial asset is managed and its contractual cash flows.

### 1.3.2 Recognition and measurement

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated at FVTPL:

- i. the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- ii. the contractual terms of the financial asset give rise on specified dates to cash flows that are Solely Payments of Principle and Interest ("SPPI").

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- i. the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- ii. the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held-for-trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI at FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Page 14.

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

## 1 Summary of significant accounting policies

### 1.3 Financial assets - (continued)

#### 1.3.3 Impairment

The Company assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The company's financial assets are subject to the expected credit loss model.

Expected credit loss model

The company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- i. debt securities that are determined to have low credit risk at the reporting date; and
- ii. other debt securities and bank balances for which credit risk has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due date and it considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held) or the financial asset is more than 90 days past due date.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument: 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the company is exposed to credit risk.

Page 15.

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

- 1 Summary of significant accounting policies
- 1.3 Financial assets (continued)
- 1.3.3 Impairment (continued)

ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data such as significant financial difficult of the borrower or issuer or a breach of contract such as default or being more than 90 dys past due date.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carryinh amount of the assets.

Simplified approach model

For loans and trade and other receivables, the Group applies the simplified approach required by IFRS 9, which required expected lifetime losses to be recognised from initial recognition of the receivables.

The expected loss rates are based on the payment profiles of sales over a period of 12 months before 31 December 2019 or 1 January 2019 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the liability of the customers to settle the receivable. Receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, among others, the probability of insolvency or significant financial difficulties of the debtor. Impaired debts are derecognised when they are assessed as uncollectible.

Page 16.

### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

#### 1.4 Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

### 1.5 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

### 1.6 Provisions

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is possible that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

## 1.7 Revenue and cost recognition

Sales of property are recognised when the significant risks and rewards of ownership of the property being sold effectively transferred to the buyer. This is generally considered to occur at the later of the contract of sale and the date when all the company's obligations relating to the property are completed and the possession of the property can be transferred in the manner stipulated by the contract of sale. Amounts received in respect of sales that have not yet been recognised in the financial statements, due to the fact that the significant risks and rewards of ownership still rest with the company, are treated as payments received on account and presented within trade and other payable.

Other operating income consisting of the following is recognised on an accruals basis: Interest

Costs are recognised when the related goods and services are sold, consumed or allocated, or when their future useful lives cannot be determined.

Page 17.

## NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

## 1 Summary of significant accounting policies

### 1.8 Borrowing costs

Borrowing costs directly attributable to the acquisition and construction of property are capitalised as part of the cost of the project and are included in its carrying amount. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare any distinct part of the project for its sale or intended use is completed. Borrowing costs which are incurred for the purpose of acquiring or constructing qualifying property, plant and equipment or investment property are capitalized as part of its cost. Borrowing costs are capitalized which acquisition or construction is actively underway and cease once the asset is substantially complete, or suspended if the development of the asset is suspended. All other borrowing costs are recognized as an expense in the profit and loss account in the period as incurred.

### 1.9 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

### 1.10 Other financial liabilities

Other financial liabilities are recognized initially at fair value of proceeds received, net of transaction costs incurred. Other financial liabilities are subsequently measured at amortised cost using the effective interest method unless the effect of discounting is immaterial. Any difference between the proceeds, net of transaction costs, and the settlement or redemption of other borrowings is recognised in profit or loss over the term of the borrowings, unless the interest on such borrowings is capitalised in accordance with the company's accounting policy on borrowing costs.

#### 1.11 Investments

The company's investments held as fixed assets are stated at cost less provisions for long-term impairment in value.

### 1.12 Investment property

Investment property is stated at cost. Freehold property or property held on perpetual emphyteusis are not depreciated.

### 1.13 Inventory - Development project

Land and development costs are stated at the lower of acquisition and development costs and net asset value. Net asset value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

Page 18.

## NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 1 Summary of significant accounting policies

### 1.14 Inventory - Development project

The main object of the Company is the development of land acquired for development and resale. This development is intended in the main for resale purposes, and is accordingly classified in the financial statements as Inventory. Any elements of a project which are identified for business operation or long-term investment properties are transferred at their carrying amount to Property, plant and equipment or investment properties when such identification is made and the cost thereof can reliably be segregated.

The development is carried at the lower of cost and net realisable value. Cost comprises the purchase cost and net realisable value. Cost comprises the purchase cost of acquiring the land together with other costs incurred during its subsequent development, including:

- (i) The cost incurred on development works, including demolition, site clearance, excavation, construction, etc., together with the costs of ancillary activities such as site security.
- (ii) The cost of various design and other studies conducted in connection with the project, together with all other expenses incurred in connection therewith.
- (iii) Any borrowing costs, including imputed interest, attributable to the development phases of the project.

The purchase cost of acquiring the land represents the cash equivalent of the contracted price. This was determined at date of purchase by discounting to present value the future cash outflows comprising the purchase consideration.

Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

### 1.15 Trade and other receivables

Trade receivables are amounts due from customers for units sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the nominal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the income statement within selling and other direct expenses.

When a receivable is uncollectible, it is written off against the allowance account for trade and other receivables. Subsequent recoveries of amounts previously written off are credited against selling and other direct expenses in the income statement.

Page 19.

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 1 Summary of significant accounting policies

#### 1.16 Cash and cash equivalents

Cash and cash equivalents as shown in the cashflow statement comprise cash in hand and deposits repayable on demand less bank overdrafts. Bank overdrafts are included in the statement of financial position as borrowings under current liabilities.

#### 1.17 Current and deferred tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balance on a net basis.

### 1.18 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

Page 20.

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 2 Financial risk management

### 2.1 Financial risk factors

The company's activities are potentially exposed to a variety of risks: market risk, economic risk, counter-party risk, credit risk and liquidity risk. Where possible, the board provides principles for overall risk management, as well as policies to mitigate these risks in the most prudent way.

(i) The company is subject to market and economic conditions generally

The company is subject to the general market and economic risks that may have a significant impact on the projects of the subsidiaries, the timely completion of the said projects and budgetary constraints. These include factors such as the state of the local property market, inflation, and fluctuations in interest rates, exchange rates, property prices and other economic and social factors affecting demand for real estate generally. If general economic conditions and property market conditions experience a downturn which is not contemplated in the company's planning during the construction and completion of the projects, this shall have an adverse impact on the financial condition of the company and the ability of the Company to meet its obligations.

(ii) The property market is a very competitive market that can influence the sales of units in the Projects

The real estate market in Malta is very competitive in nature. An increase in supply and/or a reduction in demand in the property segments in which the company operates and targets to sell the remaining units in stock and the properties being developed, may cause sales of units forming part of the projects to sell at prices which are lower than is being anticipated by the company or that sales of such units are in fact slower than is being anticipated. If these risks were to materialise, particularly if due to unforeseen circumstances there is a delay in the tempo of sales envisaged by the company, they could have a material adverse impact on the company and the Issuer's ability to meet its obligations.

(iii) The company depends on third parties in connection with its business, giving rise to counterparty risks

The company relies upon third-party service providers such as architects, building contractors and suppliers for the construction and completion of each of the projects of its subsidiaries. The company has engaged the services of third party contractors for the development of the projects including, excavation, construction and finishing of the developments in a timely manner and within agreed cost parameters. This gives rise to counter-party risks in those instances where such third parties do not perform in line with the company's expectations and in accordance with their contractual obligations. If these risks were to materialise, the resulting development delays in completion could have an adverse impact on the company's businesses, and their respective financial condition, results of operations and prospects, that could have a material adverse impact on the Issuer's ability to meet its obligations.

Page 21.

### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 2 Financial risk management - continued

#### 2.1 Financial risk factors - continued

(iv) Material risks relating to real estate development may affect the economic performance and value of the Projects

There are several factors that commonly affect the real estate development industry, many of which are beyond the company's control, and which could adversely affect the economic performance and value of the company's projects. Such factors include:

- changes in European and global economic conditions;
- changes in the general economic conditions in Malta;
- general industry trends, including the cyclical nature of the real estate market;
- changes in local market conditions, such as an oversupply of similar properties;
- a reduction in demand for real estate or change of local preferences and tastes;
- possible structural and environmental problems;
- changes in the prices and supply of raw materials, building materials;
- acts of nature that may damage any of the properties or delay development thereof

## (v) The company may be exposed to environmental liabilities attaching to real estate property

The company may become liable for the costs of removal, investigation, or remediation of any hazardous or toxic substances that may be located on, or in or which may have migrated from, a property owned or occupied by it, which costs may be substantial. The company may also be required to remove or remedy any hazardous substances that it causes or knowingly permits at any property that it owns or may in future own. Laws and regulations, which may be amended over time, may also impose liability for the presence of certain materials or substances or the release of certain materials or substances into the air, land or water or the migration of certain materials or substances from a real estate investment, including asbestos, and such presence, release or migration could form the basis for liability to third parties for personal injury or other damages. These environmental liabilities, if realised, could have an adverse effect on the company's operations and financial position.

### (vi) Property valuations may not reflect actual market values

The valuations of the properties on which the share acquisitions were based were prepared by an independent qualified architect in accordance with the valuation standards published by the Royal Institution of Chartered Surveyors (RICS). In providing a market value of the respective properties, the independent architect has made certain assumptions which ultimately may cause the actual values to be materially different from any future values that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends as reality may not match the assumptions. There can be no assurance that such property valuations and property-related assets will reflect actual market values.

### (vii) General exposure to funding risks

The funding of each project is partly dependent on the proceeds from the gradual sale of the units in each development. If the projected sale of the units is not attained or is delayed, the company may well not have sufficient funds to complete all the projects within the projected time-frames or to pay the contractors for works performed.

Page 22.

### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

#### 2 Financial risk management - continued

#### 2.1 Financial risk factors - continued

(viii) The company may be exposed to cost overruns and delays in completion of the projects

Each of the projects being undertaken by the company is prone to certain risks inherent in real estate development, most notably the risk of completing each project within its scheduled completion date and within the budgeted cost for that development. If either or both risks were to materialise they could have an impact on the financial condition of the respective subsidiary and/or the company, and the ability of the latter to meet its obligations. The risks of delays and cost overruns, could cause actual sales revenues and costs to differ from those projected and which are affected, amongst others, by factors attributable to counter-parties, general market conditions, and competition which are beyond the company's control. Delays in the time scheduled for completion of one or more of the projects may also cause significant delays in the tempo of the sales forecasted by the company for units within the Project or Projects affected by such delay, which can have a significant adverse impact on the company's financial condition and cash flows. Similarly, if any one or more of the projects were to incur significant cost overruns that were not anticipated, the company may have difficulties in sourcing the funding required for meeting such cost overruns and therefore may risk not completing one or more of the projects, which shall have a material adverse impact on the cash flows generated from sales of units in that Project and a material adverse impact on the financial condition of the specific subsidiary and ultimately the Issuer.

#### (ix) Foreign Exchange risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities which are denominated in a currency that is not the entity's functional currency. As at reporting date, the Company has no currency risk since all assets and liabilities are denominated in Euro.

### (x) Fair value interest rate risk

The Company is exposed to risks associated with the effects of fluctuations in the prevailing levels of the market interest rates on its interest bearing financial instruments.

As at the reporting date, the Company holds available for sale investments which are limited to Corporate bonds and bank deposits. Borrowings are subject to fixed interest rates and principally consist of the public bonds. Based on the above, the board considers the potential impact on profit or loss of a defined interest rate shift at the reporting date to be quite contained.

#### (xi) Liquidity risk

The company is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise principally trade and other payables and borrowings. Prudent liquidity risk management includes maintaining sufficient cash to ensure the availability of an adequate amount of funding to meet the company's financial obligations and to safeguard the Company's ability to continue as a going concern, in particular to complete of the company's projects in a timely manner.

Page 23.

#### NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

### 2 Financial risk management - continued

#### 2.1 Financial risk factors - continued

#### (xii) Capital risk management

The company's objectives when managing capital are to safeguard the company's ability to continue as a going concern; to maximise the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure consists of items presented within equity in the statement of financial position. The company monitors the level of debt against total capital on an ongoing basis.

(xiii) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument leading to a financial loss.

The company is not significantly exposed to credit risk arising in the course of its principal activity relating to the sale of residential units in view of the way promise of sale agreements are handled through receipt of payments on account at established milestones up to delivery. The company monitors the performance of the purchases throughout the term of the related agreement in relation to meeting contractual obligations and ensures that contract amounts are fully settled prior to delivery of the residential unit.

Furthermore, the company manages its credit risk exposure in relation to receivables from fellow companies in an active manner, at arm's length and with interest charged thereon. The Board retains direct responsibility for affecting and monitoring the investments made by the fellow companies. The Board considers these receivables to be fully performing and recoverable.

#### 3 Turnover

Turnover represents the property held for developments and resale, and is made up as follows:

	2019	2018
	€	€
Sale of property held for Development and resale	11,818,570	2,002,000
	11,818,570	2,002,000

## 13 Earnings per share

Earnings per share is calculated by dividing the result attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	2019	2018
	€	€
Profit for the year	3,463,191	639,044
Weighted averge share in issue	1,398	1,398
Earnings per share	2477.25	457.11

The company has not issued any dilutive instruments in the past, and therefore the basic and diluted earnings per share are equal.

Amounts due to group companies	2,533,871	2,403,606
Shareholders' current accounts	933,769	933,769

#### 17 Post Balance Sheet events

Following the developments, after the balance sheet date, of events pertaining to the COVID-19 pandemic, which is deemed to be a non-adjustable subsequent event, the Company is closely monitoring the situation resulting from these events - and the effects which these may have on its stakeholders, operations and performance.

The COVID-19 pandemic has caused disruption to businesses and economic activity which has also been reflected in volatility in the property market.

The Directors consider that it is premature to forecast the impact of the pandemic on the financial and operational performance of the Company itself, more so since developments continue to unfold daily. Whilst the Directors believe that the pandemic will affect sales of property during 2020, they are confident that the Company has in place robust financial fundamentals and proper resources to enable it to meet the challenges that the pandemic may present.

Based on the outcome of cash flow projections which factor for possible strain on the property market, the Directors consider the going concern assumption in the preparation of the financial statements as appropriate as at the date of authorisation and believe that no material uncertainty that may cast significant doubt about the company's and the group's ability to continue as a going concern exists as at that date.

#### 18 Capital commitments

As at 31st December 2019, the company entered into promise of sale agreements with advanced deposits amounting to Eur 1,378,356. These agreements are expected to generate sales amounting to Eur 11,206,175.

Page 29.

## NOTES TO THE FINANCIAL STATEMENTS - 31st DECEMBER 2019

## 19 Contingent liabilities

The 4.25% Secured Bond 2023 and the 3.65 Secured Bond 2022 of Gap Group plc are redeemable at par on the 3 October 2023 on the 5th of April 2022 respectively. Both bonds are secured for the full nominal value of secured bonds and interests thereon as follows consequently:

- i. First ranking general hypothec over all present and future assets of Gap Group plc
- ii. First ranking special hypothec over all present and future assets of the company and over the Luqa development.

## 20 Statutory information

Gap Luqa Limited is a limited liability company and is incorporated in Malta, with its registered address at Gap Holdings Head Office, Censu Scerri Street, Tigne', Sliema, SLM 15, Malta.

There is no ultimate controlling party as none of the shareholders hold more than 50% of the voting shares in the company.
